CCELL

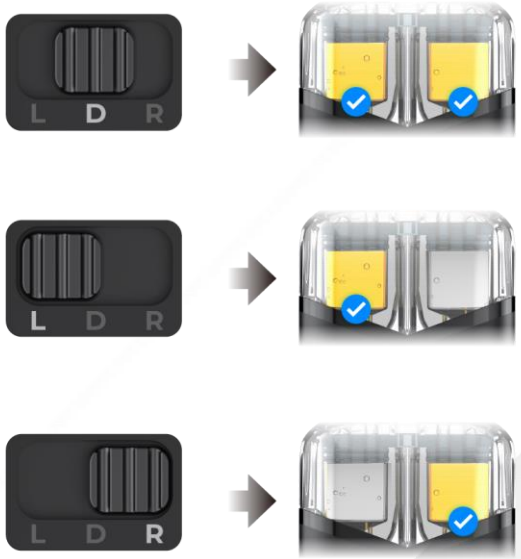
MixJoy

Double the Joy

CCELL DOES NOT PRODUCE, DISTRIBUTE OR SELL ANY MATERIAL FILLED IN CARTRIDGES AND OIL TANKS. NOT FOR SALE TO MINORS.

Two Tanks,
Three Unique Experiences.

The MixJoy is designed to house a different strain in each of its twin tanks, offering a total of three distinct experiences. Enjoy each flavor individually or mix both together using the switch under the device to match your mood!



CCELL

Postless Design
Clear Oil Visibility

MixJoy's postless design offers an unobstructed, panoramic view of your oil. Say goodbye to conventional center posts, and hello to a world of complete clarity!

CCELL

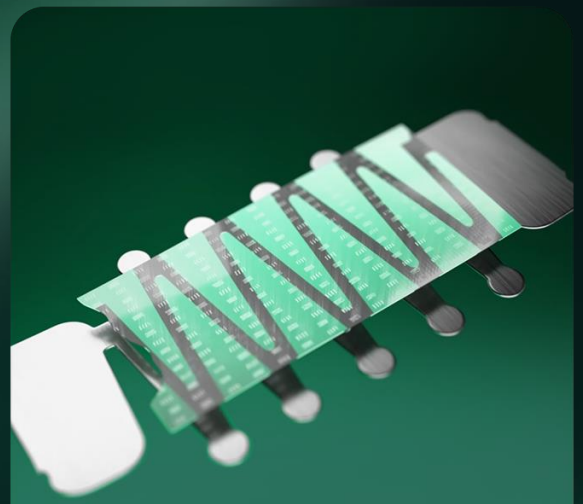
Seamless Smart Display

Experience total control over every pull!

The MixJoy features a built-in display screen that provides real-time battery life updates, voltage settings, a preheat functionality, and information on which oil tank(s) you are currently using.

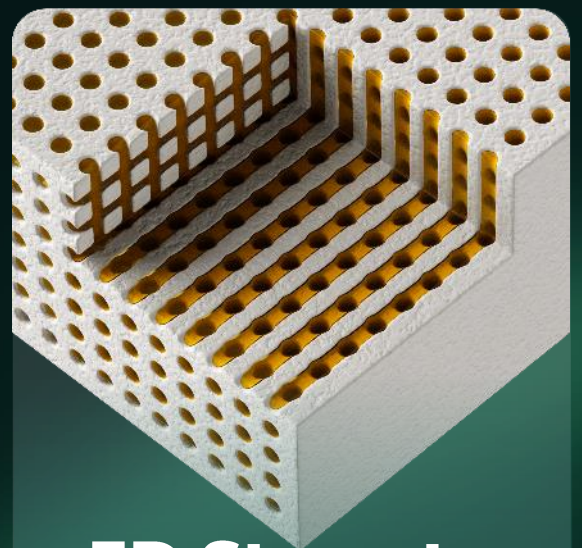
CCELL 3.0 Bio-Heating

The World's Premier Ultra-Low Temperature Heating Solution



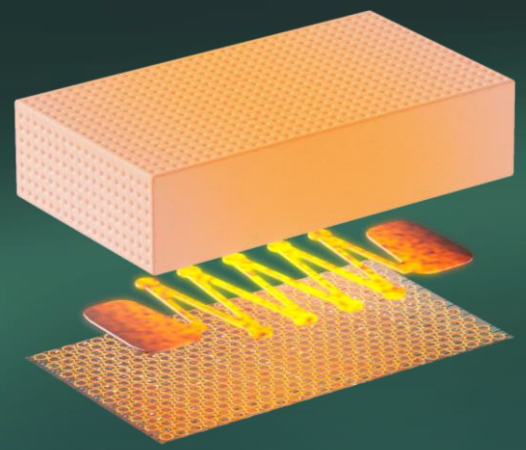
VeinMesh Design

Ultra-Low Heating Temperature



3D Stomata Design

Exceptional Leak and Clog Prevention



100% Cotton-Free

0 Burnt Flavors* Stemming from the Cottonless Core

Postless Tank Design

Clear Oil Visibility
Maximum Vaporization

"0 burnt flavors" refers to the absence of burnt flavors stemming from the cottonless heating core.

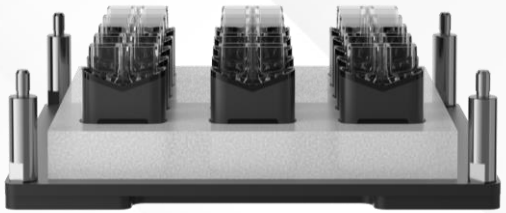
Filling and Capping Instructions

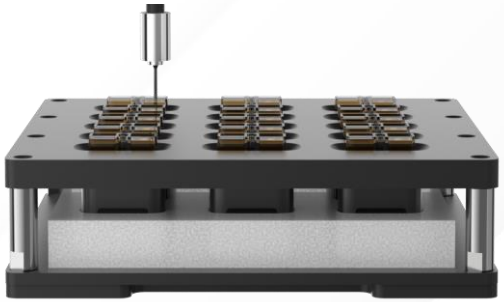


STEP 1

Place the preloaded battery tray onto the baseboard.

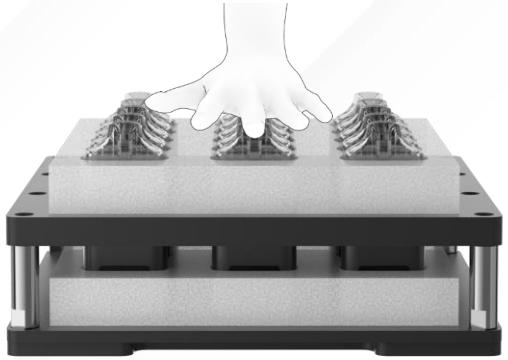
STEP 2

Place the deflector over the tray.



STEP 3

Fill the devices' left tanks with one oil first, then fill the right tanks with another oil, or vice versa.

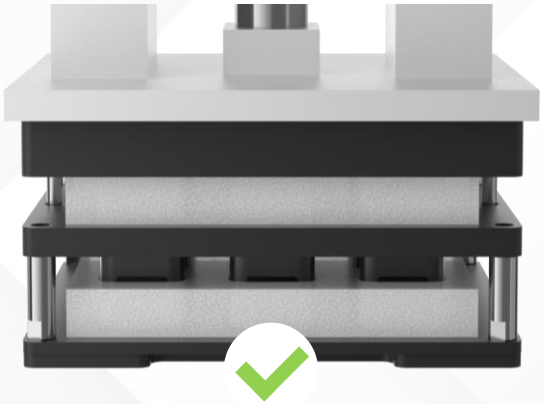


STEP 4

Place the preloaded mouthpiece tray onto the deflector. Gently tamp down the mouthpieces to ensure they are aligned with the batteries.

STEP 5

Place the gland plate on top.



STEP 6

Press with machine to seal off the filled devices.

*A capping force of 3-5 kN is required to cap 18 devices at a time.
