CCELL

Prism-Cut Panoramic Tank

The GemBox features a postless, prism-cut oil tank designed to enhance oil fluidity with its clean lines. This tank transparency also allows your oil's natural beauty to *shine* as bright as it should!

CCELL

Postless Design, Clear Oil Visibility

GemBox's postless design offers an unobstructed, panoramic view of your oil. Say goodbye to conventional center posts, and hello to a world of complete clarity!

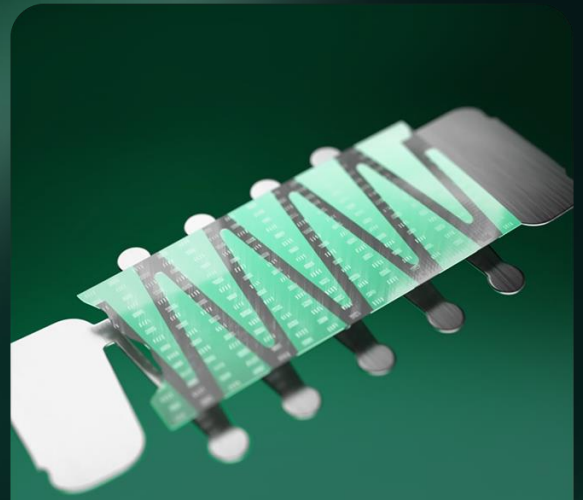
CCELL

Seamless Smart Display

Stay informed with every draw! The GemBox's built-in display screen provides real-time updates on battery life and easy-to-view voltage settings, ensuring a truly unmatched AIO experience.

CCELL 3.0 Bio-Heating

The World's Premier Ultra-Low Temperature Heating Solution



VeinMesh Design

Ultra-Low Heating Temperature

Filling and Capping Instructions

STEP 1

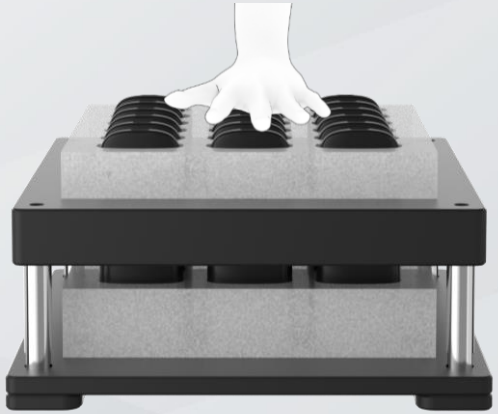
Place the preloaded battery tray onto the baseboard.

STEP 2

Place the deflector over the tray.

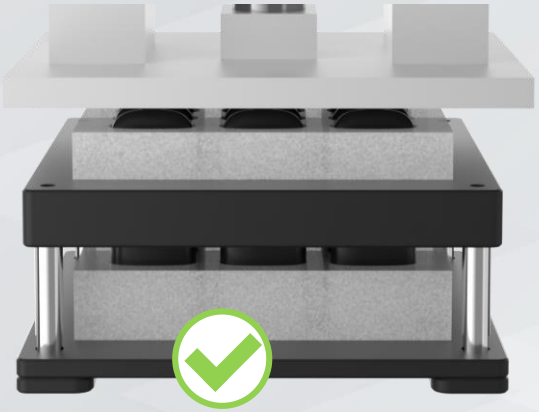
STEP 3

Fill oil into the devices' reservoirs.



STEP 4

Place the preloaded mouthpiece tray onto the deflector. Gently tamp down the mouthpieces to ensure they are aligned with the batteries.



STEP 5

Press with machine to seal off the filled devices.

*A capping force of 3-5 kN is required to cap 18 devices at a time.
